ByNature

SPECIALISTS IN BIOPHILIC DESIGN

We create strong connections between nature and the indoor environment

BYNATURE VISION

Nature plays an essential role in our lives by improving our wellness, happiness, health, and even our productivity. Yet, while we spend 85% of our time indoors, there is still an increasing lack of nature in our living spaces.

ByNature believes that any space could be transformed into a green environment. We aspire to bring nature into everyone's lives by creating an experience for people to enjoy, breathe, and feel good.

BYNATURE MISSIONS

Whether small scale, large scale, living or preserved, ByNature's team of passionate people are dedicated to using their knowledge of biophilic design principles to liven your home or office space.

ByNature's vision, however, could not happen without its growing network of visionary partners (architects, designers, landscapers, engineers, and creative visionaries alike). Together, we bring our unique expertise to the table to promote, educate and innovate by creating and sourcing new leading-edge technologies that make your living space a better place.

ENJOY. BREATHE. FEEL GOOD.

FAUX PANELS

Our faux panels are used to create stunning vertical gardens. This product will bring the organic shapes and colours of nature to your space with zero maintenance.

Each faux panel has been carefully designed to mimic the growing patterns and movement of natural foliage and to prevent any visible repetition in planting.

FAUX PANELS

Our faux panels are used to create stunning vertical gardens. This product will bring the organic shapes and colours of nature to your space with zero maintenance.

Each faux panel has been carefully designed to mimic the growing patterns and movement of natural foliage and to prevent any visible repetition in planting.

Plants can be manually manipulated for your taste!

Different species for a dense and natural planting

Variety of colours and textures

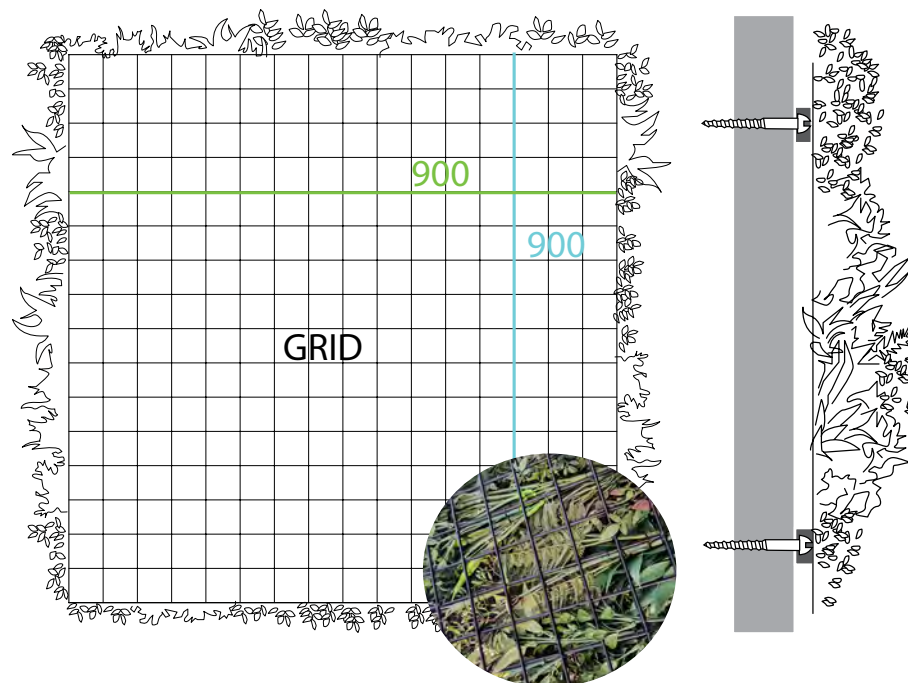

- The panels can be cut to fit bespoke areas
- Fire and UV solar weather tested foliage
- Light weight aerated system
- Several plant layouts available

FAUX FLORA (35.55" X 35.55")

- Each panel is about 20lb

PANEL

ByNature's Faux Flora panels' light weight grid system makes installation stress free with their tested anchor system. Install the anchors right to the walls and simply click the panels into place!

BEAUTIFULLY CURATED FOR A UNIQUE DESIGN!

Faux panels can be easily cut to perfectly fit your space. The extra plant overhang beautifully hugs surrounding elements creating a fully integrated look.

The designer for this residential apartment development was looking for a perfect solution to add maintenance free greenery to the industrial style lobby. ByNature's faux panels were the perfect solution as they can also be near the water features without the risk of damage! The designer says that it the faux panels was exactly what she was envisioning and was thrilled with the detail.

TRAILING PLANTS & GARLANDS

ByNature's faux ceiling and planter installations are a beautiful way to add cascading greenery from above, without the natural limitations of our live or preserved products.

The wide selection of faux plants ensures you will have a truly unique installation in your space. These zero maintenance plants are suitable for indoor and outdoor use and options are available with UV and IFR ratings.

FERNS

Faux plants give you the freedom to get truly creative with the spaces you have, be it at home or work. Dark corners, no windows or limited space are not a problem. Tailor the landscape to suit your design, no need to worry about the plant altering or changing over time. Faux plants are also perfect for high traffic areas around seating as they are much less susceptible to damage compared to living or preserved plants.

POTTED PLANTS & TREES

Liven up your space with a maintenance free tree or plant. Living plants, especially trees, can require a lot of light and water to thrive and look their best, and for some spaces that is not an easy option. So pick an easy option by opting for an artificial one. The trees and plants come in a variety of different shapes, species and sizes to best fit your space! They are light weight and branches can be manually manipulated to so you can find the arrangement that works best for you!

FLOWERS & SUCCULENTS

Compliment your space's greenery with a pop of colour from our vast selection of faux flowers and succulents! From stems, to garlands and sprays, we have flowers available for you in all different shapes, colours and sizes! Your flowers will always be perfect and fully bloomed and will make any space feel like a beautiful garden paradise.

Our curated selection of succulents are hyper realistic and can be combined in multiple ways to create beautiful and unique planter creations. Faux succulents make the perfect tabletop accent as they are very hearty and are not easily damaged. They are great for adding a pop of green and colour to your high traffic areas.
