

A line of affordable powder coated aluminum planters in a range of set sizes.

Stock Planter With Drip Tray

Stock Planter Without Drip Tray

Stock was designed to solve a supply chain crisis in North America for landscapers and homeowners alike. Made entirely in Canada at our manufacturing facilities on both the east and west coast, these sleek Aluminum Stock planters are made to order and are always available.

Features

- Hand built in Canada and competitively priced
- Durable and weather resistant aluminum construction, complete with drainage holes
- Powder coated components available in six standard colors
- For indoor and outdoor use, available with or without a 1.5" drip tray
- 26 researched sizes for all applications

Stocks' inset kick is designed to accept a drip tray seamlessly

Stocks' 1.5" drip tray locks into place and creates a subtle reveal between planter components.

Stock planters are powdercoated with a durable finish and are available in six standard colors.
