Enjoy. Breathe. Feel good.

Faux Flora & Faux Plants

ByNature

SPECIALISTS IN BIOPHILIC DESIGN

We create strong connections between nature and the indoor environment

BYNATURE VISION

Nature plays an essential role in our lives by improving our wellness, happiness, health, and even our productivity. Yet, while we spend 85% of our time indoors, there is still an increasing lack of nature in our living spaces.

ByNature believes that any space could be transformed into a green environment. We aspire to bring nature into everyone’s lives by creating an experience for people to enjoy, breathe, and feel good.

BYNATURE MISSIONS

Whether small scale, large scale, living or preserved, ByNature’s team of passionate people are dedicated to using their knowledge of biophilic design principles to liven your home or office space.

ByNature’s vision, however, could not happen without its growing network of visionary partners (architects, designers, landscapers, engineers, and creative visionaries alike). Together, we bring our unique expertise to the table to promote, educate and innovate by creating and sourcing new leading-edge technologies that make your living space a better place.

ENJOY. BREATHE. FEEL GOOD.

FAUX FLORA & FENCE SCREEN

Faux Flora and Fence Screen Panels are used to create stunning vertical gardens. This product will bring the organic shapes and colours of nature to your space with zero maintenance.

Each faux panel has been carefully designed to mimic the growing patterns and movement of natural foliage and to prevent any visible repetition in planting.

FAUX FLORA

- 4x panel styles available
- Each panel measures 35.45 x 35.45" (900mm x 900mm)
- The panels can be cut to fit bespoke areas
- Fire and UV solar weather tested foliage
- Light weight aerated system
- No maintenance

ALL GREEN

TND - 30

LUSH GREEN PLUS YELLOW

TND - 04

ByNature Faux panels are beautiful curated to use ultra-realistic foliage to create a completely natural looking green wall.

The green wall panels feature plants at varying heights to create a rich colour and texture throughout the wall.

The panels also feature various different shades of greens to emulate new growths and different species.

The planting patterns interconnect naturally, and effectively eliminate visible vertical and horizontal joints.

LUXURY WHITE

TND - 05

DESIGNER WALL

TND - 38

ByNature's Faux Flora panels' light weight grid system makes installation stress free with their tested anchor system. Install the anchors right to the walls and simply click the panels into place!

LA RIVIERE

Plants can be manually manipulated for your taste!

Different species for a dense and natural planting

Variety of colours and textures

BEAUTIFULLY CURATED FOR A UNIQUE DESIGN!

Faux Flora panels can be easily cut to perfectly fit your space. The extra plant overhang beautifully hugs surrounding elements creating a fully integrated look.

The designer for this residential apartment development was looking for a perfect solution to add maintenance free greenery to the industrial style lobby. ByNature's faux flora panels were the perfect solution as they can also be near the water features without the risk of damage! The designer says that it the faux flora panels was exactly what she was envisioning and was thrilled with the detail.

FENCE SCREEN

- 5 per box/28 sqft
- Each panel measures 20 x 40" (500mm x 1010mm)
- The panels can be cut to fit bespoke areas
- UV stable HDPE lightfast colours pigments
- 5-8 year outdoor and 15-year indoor expected life
- No maintenance
- Proprietary RealLeaf® Technology

Size Comparision

- 40 Green Zip Ties
- Bends to Fit Any Surface

5 Per Box
(20" x 40" mat panels)

Covers 28/SQF

Connect and cut to desired size

TRAILING PLANTS & GARLANDS

WHY FAUX PLANTS?

Faux plants feature a great imitation of nature, as the authentic colours and textures mimic living plants perfectly and like real plants, have a positive impact on the way people feel in a space. When living or preserved plants do not work in a space because of indoor environmental conditions, these exquisite faux plants become the best option. Faux plants are also perfect for outdoor use as they are weather resistant and more durable than living or preserved plants!

ARTISTICALLY CURATED FOR YOU!

ByNature's faux ceiling and planter installations are a beautiful way to add cascading greenery from above, without the natural limitations of our live or preserved products. The wide selection of faux plants ensures you will have a truly unique installation in your space. These zero maintenance plants are suitable for indoor and outdoor use and options are available with UV and IFR ratings.

Faux plant options are endless! Haven't found what you're looking for, and want additional options? Please contact your sales representative!

PLANT SPRAYS, LEAVES, FERNS & GRASSES

FULLY UNIQUE SPACES!

Faux plants give you the freedom to get truly creative with the spaces you have, be it at home or work. Dark corners, no windows or limited space are not a problem. Tailor the landscape to suit your design, no need to worry about the plant altering or changing over time. Faux plants are also perfect for high traffic areas around seating as they are much less susceptible to damage compared to living or preserved plants.

Plants can be used in large currations for built in planters or as subtle potted accents around your space. This completely maintenance free option has few limits, and working with our team of skilled and creative designers we will be able to create a truly unique space for you to enjoy!

FLOWERS & SUCCULENTS

LOOKING FOR SOME COLOUR?

Compliment your space's greenery with a pop of colour from our vast selection of faux flowers and succulents! From stems, to garlands and sprays, we have flowers available for you in all different shapes, colours and sizes! Your flowers will always be perfect and fully bloomed and will make any space feel like a beautiful garden paradise.

Our curated selection of succulents are hyper realistic and can be combined in multiple ways to create beautiful and unique planter creations. Faux succulents make the perfect tabletop accent as they are very hearty and are not easily damaged. They are great for adding a pop of green and colour to your high traffic areas.

TREES AND POTTED PLANTS

WHY FAUX TREES?

Liven up your space with a maintenance free tree. Live trees require a lot of light and water to thrive and look their best, and for some spaces that is not an easy option. So pick an easy option by opting for a beautiful faux tree. The trees and plants come in a variety of different shapes, species and sizes to best fit your space! They are light weight and branches can be manually manipulated to so you can find the arrangement that works best for you!
