rough

fiberclay

The rough collection is the rebellious one of the pottery pots family. With its 'less is more' mentality, the rough collection focuses on the tough character of the pot. The collection, with a fiberclay base, consists of modern planter models with the same characteristic finish available in many different colors.

- Made of fiberclay (cement and glassfibers)
- Ideally suited for round shapes
- Indoor and outdoor

bohemian

ficonstone

Inspired by travelling and stories, the bohemian collection is a perfect combination of natural colors and crafts. These planters are made with a unique process; traditionally woven baskets are turned into strong planters by using ficonstone on the inside. Due to the natural composition of the material, some color and size variations may occur.

Within the bohemian collection, you can choose between two different looks, each with a different material on the outside that is ecologically responsible: **bamboo** and **straw grass**.

Bamboo

- Handmade and unique
- Strong inside because of the combination of fiberglass and cement
- Pot always remains in perfect shape because it is made of strong material
- Standard drain hole with plug and feet for the best waterdrainage
- Indoor and outdoor

polystone

The planters in the Baq Polystone collection get their authentic natural stone look from polystone, a mixture of plastic and ground limestone. While this material is externally similar to natural stone, it is also surprisingly lightweight. The planters are suitable for indoor use. To make the planter waterproof, we recommend using a liner.

mediterranean

ficonstone

The Mediterranean collection is inspired by the sun-drenched shores and beautiful landscapes of the Mediterranean. Get lost in the hidden streets and feel the soft summer breeze coming into the houses. The collection contains models all named after a Greek god. The designs have a historical shape with a modern twist.

The pots are made of ficonstone which is a mixture of cement, crushed stone, sand, and fiberglass. This makes the pots durable but lightweight and ensures that the empty pots are easy to move for every design need.

This versatile collection is suitable for both indoor and outdoor use and will give any space a modern Mediterranean touch.
