**GSF** Gloss Saffron

# RECTANGLES

Small enough to fit on a shelf, large enough to completely close off the rest of the world and surround yourself with nature. Our rectangular planter collection is so vast, you're sure to find the perfect fit.

There is no space or design scheme that these planters will not add a special flair to.

# 10” Wide Collection

Slender and sleek, our 10-inch-wide collection is perfect for narrow spaces. Offering two different heights (24 and 32 inches) in multiple lengths, this series is ideal when the form and function of a rectangle is desired, but space is limited.

# 12” Wide Collection

One of our newest additions is the 12-inch-wide collection with the opening snugly accommodating a 10” grow pot. This series offers three different heights (18, 24 and 32 inches) providing the opportunity to accomplish disparate design objectives. Each planter is available in multiple lengths and includes a corner piece option lending a hand to extraordinary design flexibility.

# 14” Wide Collection

Low and wide, the 14-inch collection is a natural choice for enclosing patios and defining walkways without sacrificing the view. These are small enough to create a flower bed, but large enough to accommodate a variety of bushes.

# 16" Wide Collection

The wider base of our most popular collection accommodates larger plants, bushes, and smaller trees; a beautiful way to create privacy and security. This collection is available in three heights (24, 32, and 42 inches) and five length options; corner units are available for additional flexibility.

# 24" Wide Collection

Our boldest rectangular collection, the 24-inch-wide series is greatly expanded offering 5 different heights with 4 different lengths and corner units for each. The possibilities are limitless. This collection is well suited for large statement pieces, barriers, or housing a large variety of plants in one planter.

# Rectangle Specialty Use

The Nile wall-mounted collection is designed as a low-profile option for adding greenery without sacrificing your floor space. Built-in and predrilled reinforcement plates enable quick and secure mounting on any vertical surface. For patios, or areas with hand or guard rails, we offer our Tiergarden railing planter, the perfect home for plants atop railings.

# Modular / Linear

Modular designs consist of related, but not uniform, design elements. It can incorporate planters with different heights and similar depths for a clean linear, yet tiered, visual. Corner units can be used to create fluid turns or returns. Or styles can be completely mixed and matched for unique custom groupings. This collection highlights a sampling of planters that are easily combined to create functional space dividers or simply enhance and beautify your space.

\* Tiered Rectangles and Corner Square planter layout.

# ROUNDS

Offering a fresh take on an all-time favorite planter shape, round planters by Jay Scotts will grace any space with timeless class and elegance.

Modern tall round planters, traditional bowl planters, globe sphere planters, cylinder pots, or any oval, ribbed and unique designs that fit both indoor and outdoor decor.

# Teardrop

Replicating nature's simple beauty, this collection features a reverse taper or teardrop shape. Broad and stable at the base and slimming toward the top this collection exemplifies elegance.

# SQUARES

The symmetry of square cube planters, together with their hard lines, add a modern edge to both interior and exterior landscaping. Use large square planter boxes to accent your patio furniture, or smaller modern square planters to accentuate interior spaces!

# Short Square Taper

These planters showcase sleek and simple lines, true classic square shapes that easily accentuate patios, porches, and balconies while providing an eye-catching focal point.
